Presidency Message

Dear Sisters,

The heat is on! We have all enjoyed the beautiful wildflowers brought by the rain. But I suspect our beautiful 60° and 70° days are over for a few months. It's a new season! It's time to rethink our daily activities as we spend more time indoors. Time to protect ourselves from the sun. Have you ever had a terrible, awful sunburn? The pain is unforgettable. Some suggestions for protecting ourselves: hydrate, use sunscreen, and wear a hat if you're exposed to the direct sun.

Likewise, we can consider protecting ourselves spiritually. We all have difficult and painful times in our lives. Just like really bad sunburn pain, we want to do all we can to protect ourselves from spiritual pain. Our faith in and worship of Jesus Christ can help carry us through our difficult and painful times.

We had a beautiful General Conference, which prepared us to worship our Savior Jesus Christ on Easter. Were you inspired to be more purposeful as we strive to be disciples of Him? We can each do things to protect ourselves from the worldly concerns that distract us from what matters most. We can each reflect on what WE need to do to protect ourselves spiritually. How do we spiritually sunscreen, hydrate, and wear a hat? The answers will be different for all of us! What can you do to draw closer to our Savior?

With love from K...
